

## 2019 Hope Demolition Derby Rules

### Compact Rules

1. Mini class must use '80 or newer front wheel drive cars or minivans. They must be 6 cylinders or less.
2. All glass, exterior trim and rear seat must be removed.
3. Doors may be chained shut, welding is optional with a 1" weld every 12" on doors, trunks, or hoods.
4. No welding on frame or suspension.
5. Must have functional brakes.
6. Battery must be altered in position, and must be securely fastened and covered.
7. Original fuel tank must be removed if it located outside of the wheelbase of the car. A metal fuel tank must be securely strapped into the back seat area and covered. If the original fuel tank is between the wheelbases of the car you may use that but must not have more than 5 gallons of gas.
8. You may chain bumpers to hood, core support, or trunk lid.
9. May have a tranny cooler.
10. No aftermarket engine cradles, carb protectors, or distributor protectors.
11. You may swap front bumpers, but must be a factory car bumper with no added bracing. This may be welded to front frame rails or bumper shocks.
12. Suspension must be stock and work properly.
13. May have A and B pillar bars and may be connected inside the front doors. This may not go to the floor or frame. You may have a gas tank protector and a rollover bar. These must be connected to cage only.
