**RE: Public Information Meeting
Street and Street Light Improvements
January 8, 2020, 7:00 PM
American Legion, 204 Steele Avenue
Hope, North Dakota**

Dear Resident/Property Owner:

The Council for the City of Hope has scheduled a Public Information Meeting for the purpose of discussing proposed sewer and street improvements in the City of Hope. The Council has acknowledged the need for sewer and street improvements and a street study was performed by Moore Engineering, Inc. to evaluate the current streets and provide recommendations for improvements. Prior to moving forward with a sewer and street project, the Council would like to inform residents and answer any questions on the proposed improvements.

The Public Input Meeting will be held at 7:00 PM on January 8, 2020 at the Hope American Legion (204 Steele Avenue), will last approximately 1.5 hours, and will include discussion on:

- Proposed Sewer & Street Improvements
- Reasons for Improvements
- Proposed Project Costs
- Proposed Project Timeline

The proposed project will potentially be paid by a combination of special assessments and a sewer rate increase to benefitting properties. These special assessments would be reflected on your property's tax statement. A video of the recorded Public Information Meeting will be posted on the City's website at www.hopend.com after the meeting. The Council would like to thank you in advance for your time and consideration as we continue to improve our city.

Sincerely,
Hope City Council
